Ray - SGR CPUC appn Summary / OP Impairment

- Seeks prc appl by mid 05-
- Need agreement of consumers - don't have it
- No action rec. to remedy non-appl / don't know why
- Pos. Ben/cost ratio. on energy basis.
for all consumers and sub-groups (SDGE?)
- Appl by mid 04 so can order long lead items
- Consistent w/ Diablo appn (w/ recovery of cancellations from SGR ratepayers)
- Envir assessment will be used.
- GRC appn useful life (2012) still holds.
- ? i. Rec SGR is life extension and not
correction of an op. imp.
- If no appl need lots of action soon
to be ready for SONGS SD.
- Draft - Cont. to evolve.
- Cont FLC of OP Imps will occur before SGR,
due to de degradation

→ JPA - we dispute that no O/I exists. and
unilateral decn to not declare O/I.

HR - Lack of CPUC action on this appn would lead
to P1+SD. (like Mojave).

JRW - Lets start toward arbitration

→ JPA - Circumventing the O/I. - No Budget, No O/I,
Change in ops life w/o BOR appl based on GRC.

HL - Trying to inform class of sub option. - obligation.

✓ JFW 16.4.1 Last 5 yrs should be decided by BOR
HR - will respond to that request.

✓ Suggested we consider life to be long because of our objections to recapture.

✓ HR - SCE has never considered life to be beyond 2013. Are we agreeing about 1 yr?

Rev - will view filing and decide if it supports sub.
L/C should determine if it exists

JFW - L/C is done on that point.

And - Amn given to Rev.

Rev. Don't want to pay cancellation costs for proj not authorized.
